

便携式液压开孔机

Portable Hydraulic Drilling Machine

针对管道、三通及压力容器等开孔设计。采用链条锁紧，任意角度安装。配备防爆液压马达驱动，动力强劲，输出扭矩大。体积小、重量轻、操作便捷，可选配多种钻头，适用于长输管线、炼化、电力、食品制药、消防等行业。

This machine is designed for opening of pipe, three-way and pressure vessel, With chain lock, any position and angle to install on the outer wall of the pipeline, Equipped with explosion-proof or flameproof motor, powerful power, large output torque, Small volume, light weight, easy to operate, can be selected with a variety long distance pipeline, refining, power, food, pharmaceutical, fire protection and other industries.

产品特点 Features

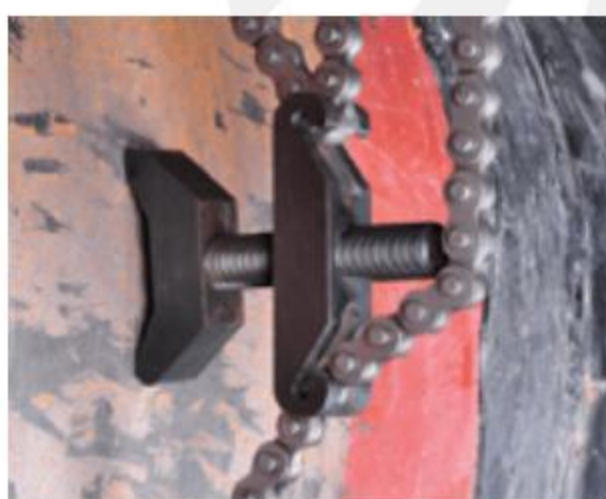

- 整机采用航空铝合金材质，体积小重量轻；
- 采用链条锁紧，可适应各种管径管道安装使用；
- 采用液压防爆驱动，可在易燃易爆环境中使用；
- 可选配多种钻头，适用多种工况。
- The whole machine adopts aviation aluminum alloy material, small Volume and light weight;
- The use of chain installation can be adapted to the installation and use of all pipe diameter installation and use;
- The use of hydraulic explosion-proof drive, can be used in flammable and explosive environment;
- Can be selected a variety of drill bits, suitable for a variety working condition.

驱动方式：液压驱动
进给方式：手动进给
额定压力：12Mpa(液压)
最大流量：20L/min
最大扭矩：88N.m
传动类型：减速传动
开孔直径：≤ 100mm
最大转速：200rpm/min
重 量：21Kg

Drive Mode: Hydraulic drive
Feed Mode: Manual feed
Nominal pressure: 12Mpa(hydraulic)
Maximum flow: 20L/min
Maximum torque: 88N.m
Transmission type: Deceleration drive
Hole diameter: ≤100mm
Maximum speed: 200rpm/min
Weight: 21Kg

固定方式：链条锁紧
适用管径：≥ 102mm

Fixed type: the chain lock
Suitable diameter: ≥102mm
